Description

2026 Variant 205 S1 Tilt 750 kg Small Box Trailer
Versatile. Compact. Ready for whatever comes next.

Close the sides and it is an enclosed box. Drop them and it is a flatbed. 634 kg in a manageable footprint that tows behind most mid-size vehicles and parks where a full-size trailer will not go.

Mechanical overrun brakes — self-regulating, no controller required.

Hot-dip galvanised steel.
The protection goes into every seam and weld — not sprayed over the outside after the fact. It will not rust in the yard between jobs or corrode near the coast.

Danish-designed. RVSA 2023 compliant. Ready to register.
