Performance & Application The G7S P-Cab 6x4 Prime Mover delivers the same proven 540 HP Euro 6 driveline as the E-Cab, in a lighter, lower-profile sleeper package. Paired with the ZF TraXon AMT and predictive EcoRoll logic, it provides confident pulling power with lower fuel burn and reduced maintenance — making it a smart choice for operators who want performance without unnecessary weight or height. Well suited to owner-operators wanting simplicity and efficiency, as well as fleets looking for a cost-effective, driver-friendly prime mover for high-utilisation work. Perfect for: ■ Regional and interstate linehaul ■ B-double operations ■ Fuel, bulk and livestock haulage ■ Tanker, container and general freight ■ Fleets focused on lower total cost of ownership ■ Owner-operators wanting premium driveline without premium pricing

Why SITRAK? ■ European driveline partners (ZF, WABCO) ■ Euro 6 efficiency & reduced running cost ■ Proven global platform with Australian-spec chassis engineering ■ Excellent cab ergonomics, quiet operation & driver comfort ■ Expanding national dealer & support network
