Description

Make - Sierra Model - T550 6 Cylinder Turbo Diesel Engine 1 Piston Variable Displacement Pump 1 Double Vane Type Pump Maximum Operating Pressure 4300 PSI 1100% Filtration with 20-micron filters Complete System Relief Protection Hydraulic Oil Cooling/Heating 700 Gallon Hydraulic Tank External Hydraulic Filtraction Most Efficient, Highest Production 550 Ton Shear Hardox Liners Total Weight Approximately 62 tons This 550 ton shear/baler/logger is sized perfectly for cost conscious operators and has the capability to make short work out of mountains of scrap metal making it the right choice for most scrap operations. As a Shear, the T550 offers surprising strength, cutting through a wide variety of materials found in scrap operations. The sizing of materials is a simple task for this shear/baler/logger and will prepare materials to mill ready specifications. The compression cycle boasts a main compression cylinder force of over 160 tons, ample power for almost any scrap processor. This extremely versatile machine gives you three machines in one and because of the throat it is able to handle bulkier items and can log automobiles easier than any machine out there on the market. Shear - Foundry Scrap, Pipe, Beams, Plate, HMS #1, HMS #2. Log - White goods, automobiles, tin, - Logging Production 14-16 Tons per hour Bale - White goods, tin - Baling Production 14-16 Tons per hour
