Description

The Develon DX80R mini excavator is engineered for peak performance and efficiency, boasting electronically optimized hydraulic systems that maximize power distribution while minimizing energy waste. This leads to quicker cycle times and reduced fuel costs, making it a highly cost-effective solution for utilities and commercial construction. With an operating weight of 8.38 tons and an engine power of 39.9 kW, the DX80R delivers the power and precision needed for demanding tasks. The operators experience is prioritized with unrivaled 360 visibility, achieved through large windows and a dozer control lever for precise blade manipulation. When you choose DWL Machinery for your DX80R, you are investing in more than just a machineyou are securing a partnership with a team dedicated to your success. DWL Machinery provides unparalleled local support, comprehensive service, and a reliable supply of parts to ensure your equipment remains in peak condition. Our commitment to minimizing downtime and maximizing productivity means you can focus on the job at hand, confident that you have a trusted partner backing you up every step of the way.
