Description

SEM HIRE Contact us for further information on availability and rates 1800 SEM HIRE bookings@semhire.com.au ---------- The Morooka MST80C is a heavy-duty rubber tracked crawler carrier built for transporting large loads across soft, muddy, steep, and difficult terrain with minimal ground disturbance. Featuring an 8,000 kg payload capacity, 11,000 kg operating weight, hydrostatic transmission, and travel speeds up to 11 km/h, the MST80C delivers excellent traction, stability, and hauling performance for civil construction, mining, forestry, and pipeline applications. Its wide rubber tracks and heavy-duty rear dump body provide efficient material handling in conditions where conventional wheeled dump trucks cannot operate effectively.
