Description

2026 Variant 3518 B4 3500 kg Beavertail Machine Trailer
Ground-level loading. No ramp drama.

The beavertail deck slopes to near ground level so machinery with low ground clearance rolls straight on. Mini excavators, skid steers, ride-on mowers — they load clean every time. 2,715 kg means you are not leaving capacity behind.

No ramps. No angles to miscalculate.
The beavertail is the deck — nothing to fold out, nothing to position. Reverse to the machine, it rolls on, you drive.

KNOTT mechanical overrun brakes — no brake controller, no wiring, no compatibility checks between vehicles.

Hot-dip galvanised. KNOTT Parabolic Leaf Spring. LED lighting.

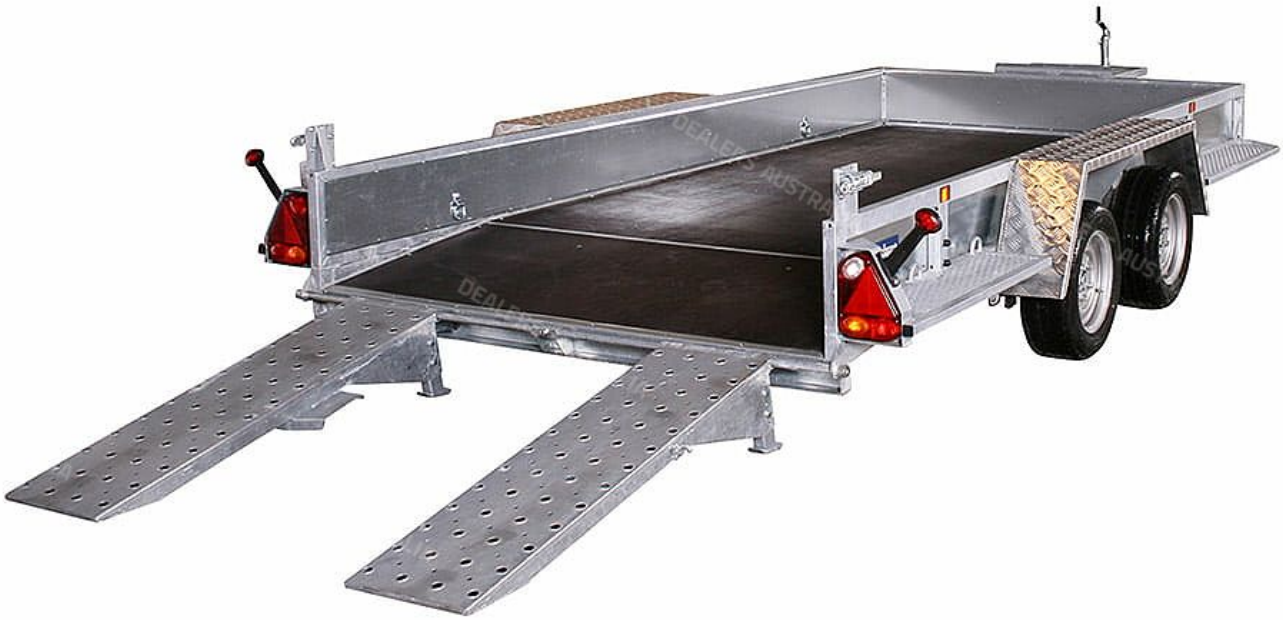

Danish-designed. RVSA 2023 compliant. Ready to register.
