Description

2026 Variant 3517 MT 3500 kg Machine Tipper Trailer
Tip it in. Drive away. No unloading by hand.

The Machine Tipper does two jobs at once — moves your machine to site and tips your load when you get there. 2,593 kg of payload, hydraulic lift from the cab. Low loading height and beavertail ramp entry means excavators, skid steers, and tracked machinery load at ground level — no ramps to wrestle.

KNOTT mechanical overrun brakes — no brake controller, no wiring, no compatibility checks between vehicles.

Hot-dip galvanised. KNOTT Parabolic Leaf Spring. LED lighting.
Built for job sites, mud, rain, and salt air. The galvanising does not chip. The suspension absorbs rough site access roads without punishing the load.

Danish-designed. RVSA 2023 compliant. Ready to register.
