Description

Semco Group is a full-service heavy equipment sale and service organisation with locations in Sydney, Melbourne, Brisbane, Newcastle, Queanbeyan and Goulburn. Great performance Suitable for large excavators between 20 to 35 Tonne, the MBS18 S3 is great for screening various kinds of material with outstanding performance. Ideal for use before, or after crushing, the MB-S18 S3 screening bucket will reduce crushing time up to 60%. It also allows the screening of natural material (quarry residue, dry soil, and river stone) of any kind, making it convenient for onsite processing. MB-S18 S3 screening bucket gives the opportunity to be implemented with the kit magnet and the nebuliser kit, increasing the versatility for the separation of iron, as well as allowing their use in inhabited centres due to suppression of dust. A must in reducing volumes and optimising the size of materials for specific uses. The screening buckets MB are equipped with baskets formed by interchangeable modular panels, available with holes of different sizes based on requirements. For more information contact =SATCH 1800 685 525
