Description

Portable Office Trailer 420 A flexible office -4.2 meters long The office cabin is one of our most popular models and stands on many construction sites throughout Scandinavia. It is possible to upgrade the cabin with a mini kitchen, utility room and extra shelves. All Scanvogn cabins are customisable so if the standard solution isn't quite what you need, you can make your portable bathroom exactly how you want it. There is a range of additional options that can be included. The 420 is a medium-sized unit. Bigger than the 320 and smaller than the 570. Toilet Type -Macerator This model comes equipped with our standard flushing toilet waste disposal. For people who have a connection to external water and drainage on site, then this is the toilet solution for you. The toilet works like a normal toilet in the home (but with a disposal for extra reliability) and therefore feels natural and comfortable. We supply the toilet in an upright or wall-mounted version, with or without visible pipes. If the pipes are hidden, the cabin is built with a technical compartment, for easy servicing of the toilet. You can choose to change the toilet type to any of our 4 toilet types including Vacuum and combustion. Or you can choose to have your portable office without a toilet for additional space. With water flushing toilet \$26,512 With toilet & grinder: \$27,286 With Tank Toilet \$26,113 With Vacuum Toilet \$39,946 With no toilet \$22,227 Easy to use and clean The trailer is connected to a standard towbar and can be set up and ready in a few minutes. This makes it possible to move the unit from place to place quickly and efficiently without any hassle. The cabin is made of clean and durable materials, saving time for cleaning and maintenance. Check out more information on the manufacturer's website.
