Description

Forestry mulcher with fixed teeth rotor for tractors between 60 and 110 HP. Specifically designed to be used on tractors with the PTO shaft positioned lower down, for an optimal working angle. Its compact footprint and low weight make it suitable for smaller and lower profile tractors. The frame has been made stronger to resist the pressure and force of tracked tractors as well as sharp turns. This avoids potential damage to the frame itself and to components such as bearings and rotor hubs. The UML/LOW model is designed specifically for vineyards and orchards. Multiple tooth options are available for different applications. The standard equipment includes: -PTO shaft with cam clutch -gearbox with freewheel -trasmission with belts in XPB -hydraulic rear hood -welded steel counter-blades -adjustable skids -reinforced heavy duty frame to increase axial loads -protection chains Available on demand: hydraulic top link, mechanical push frame, special skids to go underground, multiple tooth options. DWL Machinery is a liquidation and clearance company who sell direct to the public. Most of our plant and machinery comes direct from Government departments, the Australia Defence Force, local councils, fleet & leasing companies, bank & finance matters. We are a bucket and attachment dealer for excavators and skid steers including your favourite brands like FAE, Digga, Norm engineering, Sureweld, Auger Torque and ABS. -Australia wide delivery and International shipping simply send us your location for a quote. Pick up is in Bringelly NSW Australia 2179 or Dandenong South VIC 3175 -Finance is available on all of our equipment -We accept trade-in's, email us photos and details of the machines for valuations. -Accepted payment methods: Internet transfer, cheque, cash, Paypal or credit card. Please note Paypal or credit card payments incur a 2% surcharge. Feel free to contact Jacob from DWL Machinery for any further questions about machinery, finance, trade-ins attachments and delivery.
